Vijayan, Meghna Pusala, Udayan Atreya

A faded, light blue and grey city skyline serves as the background for the entire image. It features several prominent skyscrapers, including two with distinctive rounded, cylindrical tops. The text is centered over this background.

\$280 Billion USD lost
due to payments inefficiencies in 2024

User Issues

-  Builders waste time chasing contractors
-  Contract negotiation is manual and slow
-  Limited visibility into site progress vs. reports
-  Billions lost in inefficiencies

In simple terms...

A \$2.2 trillion industry has room for improvement!

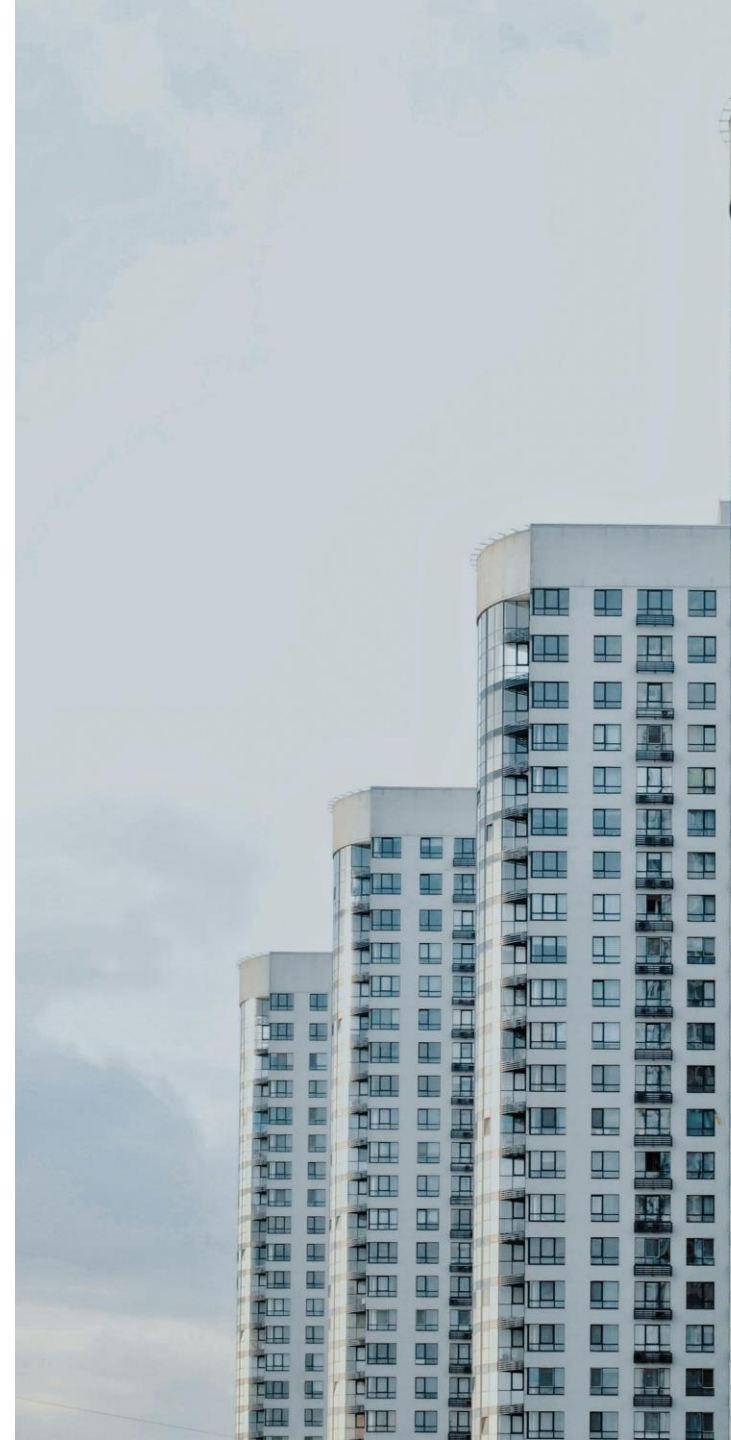

Solution

1. Faster Transactions
2. Deliverable based payments
3. Intelligent Resource Planning
4. Transparency

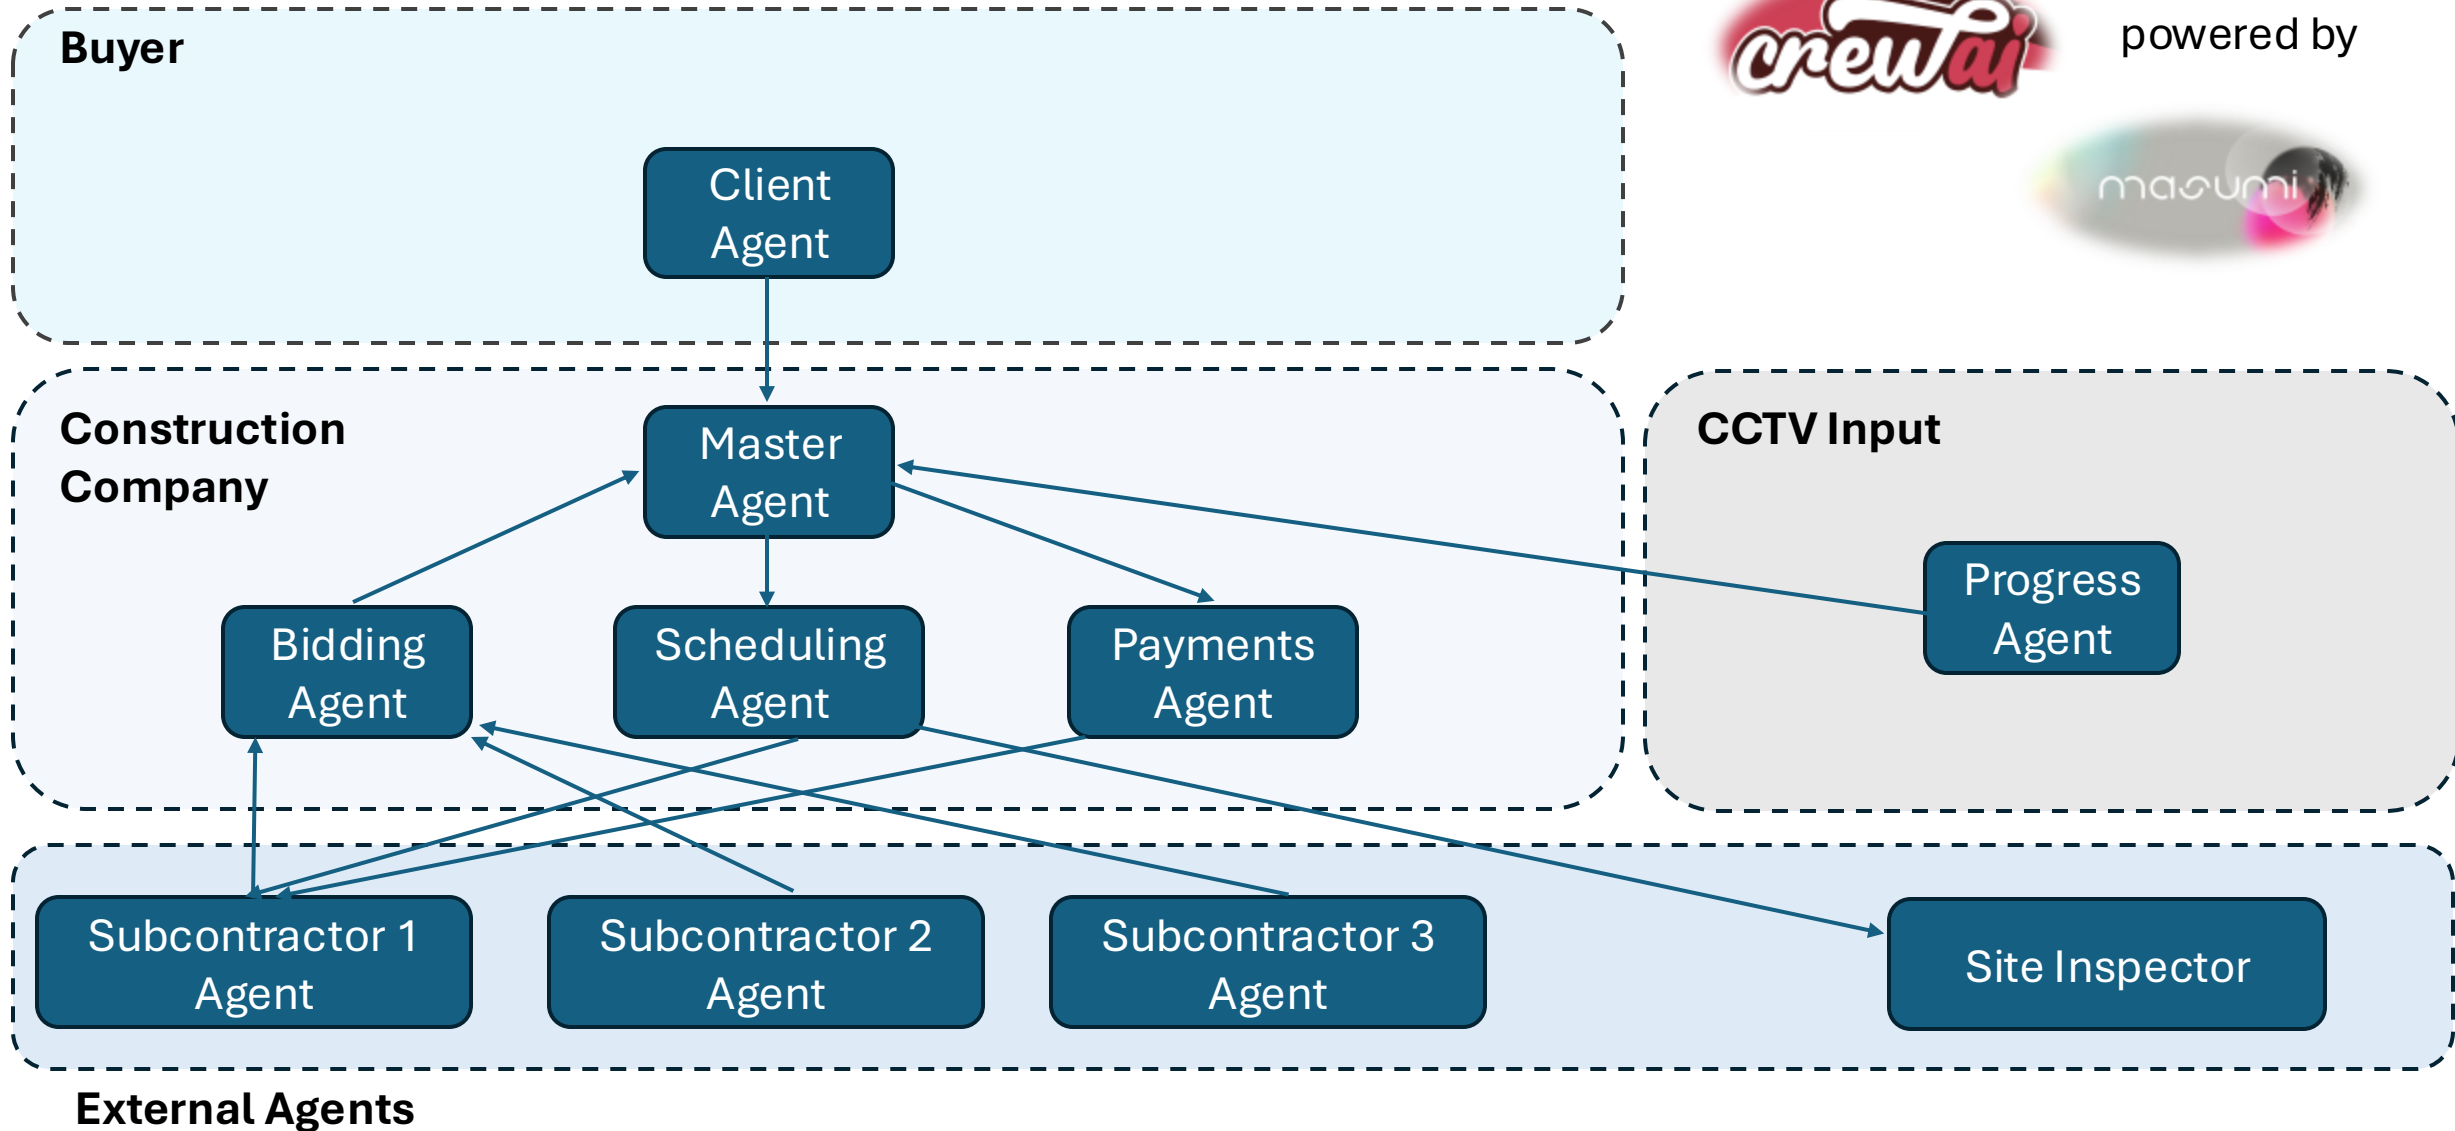

Features

- 💰 **Deliverable Based Payments:** Payment disbursed based on progress
- 🤖 **AI Agent Network:** Finds contractors, negotiates, secures bids
- 📅 **Agency to Agency Intelligent Scheduling:** Seamless communication
- 📹 **CCTV:** Verifies contractor claims with **on-site footage**
- 📡 **Live Updates:** Builders and clients see **live progress**
- 📄 **Smart Contracts:** Auto-created, enforced between all parties

Flow

Benefits

MASUMI

- 🏗️ Enters a **\$2.2T industry**
- 🔒 Trust is boosted via **on-chain contracts & real-time footage**
- ⚡ Powers the **first agent-based construction marketplace**

USERS

- ❤️ Boosted **trust**
- ✂️ Cuts time **by at least 20%**
- 💰 Reduces **costs significantly**

DEMO

Improvements

- Augment budget planning and completion date w/ weather and news data
- Incorporate calendar api to get schedules of contractors / inspectors
- Retrospective analysis to discern where bottlenecks
- Proactive notification to parties if delays or budget is exceeded
